## The Light of Knowledge

Knowledge fell as a streak  
Of light from the heavens  
And, in a starry burst,  
Released a Kaleidoscope  
of crystalline thoughts  
Whirling together,  
Casting into darkest space  
Brilliant galaxies  
Illuminating infant Earth,

And thus the stage was set  
For man's miraculous birth.

# 1989 HORIZONS STAFF

Dear Students,

It is my hope that you'll find many years of enjoyment in this year's 1989 Horizons yearbook. My staff and I worked very hard to make it a pictorial potpourri of Hahnemann school life, most of which is on the serious side, but as you'll notice on the party pages some of it is pretty darn funny! This reflects the way we perceived the nature of Hahnemann students and health professionals in general. They are people who are dedicated to giving their best to their professions, but nonetheless, they are people who know how to loosen up and just have some plain ole fun!

My special thanks has to go out to my publisher Phillip Klein at Jostens, and to Steven Anderson for his quiet patience. Also to the Carl Wolf Studios for their expertise in the official photographs of the faculty and students, and their steady availability for questions and service.

This years yearbook is dedicated to Hahnemann's 1989 graduating students, and to all of those who will be graduating in the future.

Sincerely,

*Peppi P. Davidson*

# DISTINGUISHED FACULTY

Every year a faculty member is chosen by the School of Health Sciences and Humanities to be honored with the "Distinguished Faculty Award". Dr. Gerald A. Bello was presented with this prestigious award at Hahnemann's 1988 Commencement Exercises.

Dr. Bello was born on October 17, 1947, in New Britain, Connecticut. In 1969, he attended the University of Paris at the Sorbonne, from which he received a Diplomé Annuel in French Studies. His Bachelor's Degree was earned at Tufts University, where he majored in English and French. He graduated from Tufts in 1970 with the distinction of *magna cum laude*. He then obtained his Master's Degree and his Doctorate in English from the University of Pennsylvania in 1971 and 1979 respectively.

Dr. Bello began teaching full time at Hahnemann in 1977 as a Senior Instructor in the then General Studies unit. In 1980, he became an Assistant Professor and is now an Associate Professor

of English in the Department of Humanities and Social Sciences. In the past, Dr. Bello has taught French for the Pan-American Association of Philadelphia, English and French at Friend's Select School, and English as a Teaching Assistant at the University of Pennsylvania.

No stranger to committee work at Hahnemann, Dr. Bello has served on numerous University and School committees, several of which he has chaired. As Chair of the Scholarship Committee, he was responsible for establishing new Scholarship Funds, as well as preserving older ones. As Chair of the Student Affairs Committee from 1978-1979, he instituted student offices and helped implement *Who's Who* at the School. He also organized the first School yearbook in 1978 and the University Chorus. In addition, Dr. Bello is one of the founders of *handprints*, Hahnemann's University - wide humanities magazine, whose second issue will be released this fall. As one of

the School's Faculty Representatives, he serves as a member of the HU Executive Faculty Steering Committee, the SHSH School Council, and the University Council on Academic Affairs.

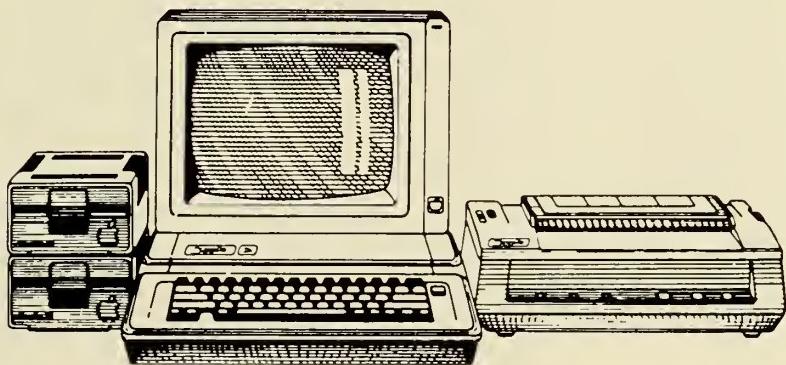

Dr. Bello's hobbies are writing poetry and songs; and he is currently involved in producing a musical composition with English, French, and Russian lyrics for the Wallenberg Committee of Greater Philadelphia. This composition will be used, in part, to facilitate the release of the Swedish humanitarian and World War II liberator, Raoul Wallenberg, from over forty years of imprisonment by the Soviet Government.

When asked to impart a few words to the students at Hahnemann, Dr. Bello responded, "Make your dreams a reality." We, in turn would like to thank Dr. Bello for his years of hard work and dedication and to congratulate him on being the recipient of the 1988 "Distinguished Faculty Award."

## A Fond Farewell & Best Wishes To Rachelle Dorfman

Rachelle Dorfman's association with the School of Health Sciences & Humanities spans many years. After graduating from the Mental Health Technology Baccalaureate Program in 1981, Ms. Dorman attended Bryn Mawr College where she earned her Master's in Social Services. She then returned to the School of Health Sciences & Humanities in October 1984 as Assistant Director of the Mental Health Baccalaureate Program. She held that position until December 1988, when she relocated to Santa Monica, California. She is now teaching graduate studies in Clinical Psychology as an Adjunct Faculty Member at Antioch University and the College of Developmental Studies.

Ms. Dorfman's commitment to the School of Health Sciences & Humanities' Family as well as her friendly smile won the appreciation and the gratitude of all those whose lives she touched. The School of Health Sciences & Humanities, especially the faculty and students of the Mental Health Technology Program, extends a fond farewell to Rachelle Dorfman and best wishes in her new endeavors.

## A Warm Welcome

The beginning of the spring semester brought the return of Adrienne Wolmark to the school of Health Sciences and Humanities as the new Associate Director of the Mental Health Technology Bachelor Degree Program from which she graduated in June 1987. After graduation for that program, Ms. Wolmark attended Bryn Mawr College where she earned her Master's in Social Sciences. In addition to her responsibilities as an associate director, she is pursuing a doctoral degree in the Human Sexuality Education Program at the University of Pennsylvania.

On speaking with Ms. Wolmark, it is easy to see that she brings a positive and committed attitude to her position as associate director of the Mental Health Technology Bachelor Degree Program. The students of SHSH enthusiastically extend our best wishes to Ms. Wolmark for her success in her new position and the continued growth of her program.

## The Light of Knowledge

Knowledge fell as a streak  
Of light from the heavens  
And, in a starry burst,  
Released a Kaleidoscope  
Of crystalline thoughts  
Whirling together,  
Casting into darkest space  
Brilliant galaxies  
Illuminating infant Earth.

And thus the stage was set  
For man's miraculous birth.
